

The Power of Habit™

THE GREATEST PREDICTOR OF HIGH PERFORMANCE

SUCCESS FOLLOWS SELF-MASTERY

Habits are unparalleled predictors of long-term outcomes. They affect performance more than talent, intelligence, luck, or decision-making. Most know this, yet we struggle to take control of our habits to get the outcomes we want. If knowing is half the battle, the other half is doing. Success is predicated on self-mastery; high performance is a matter of habit.

“There are no organizations or individuals without habits. There are only those who deliberately design them and those who do not.”

Charles Duhigg
author of *The Power of Habit*

Tools for Total Performance

Based on the bestseller by Charles Duhigg and the latest science in habit formation, *The Power of Habit* teaches how habits work and how to develop effective habits using skill instead of willpower. The course teaches a skillset for mastering any habit. You might call this skillset the habit of all habits. The one to rule them all.

Whether participants take the course on-demand, virtually, or in-person, they learn the skills through instruction, reflection, practice, and coaching. The result: greater performance and continuous improvement.

THE POWER OF HABIT EQUALS HIGH RETURNS

The Power of Habit skills help organizations meet challenges related to efficiency, agility, compliance, safety, development, and more.

AGILITY & ADAPTABILITY

Employees can better adapt to changing circumstances with skills to control their habits. The case study of Travis Leach, who made a dramatic change after learning a few skills at Starbucks, demonstrates how simple shifts in habits can drastically alter workplace performance and life outcomes.¹

EFFICIENCY

Habits are automatic routines that occur with very little thought or effort. Leaders and employees can leverage course skills to automate behaviors for increased efficiency. For example, workers at the Alcoa Corporation automated a behavioral safety routine that dramatically improved efficiency, productivity, and revenue.²

ENGAGEMENT

The skills for habit control are empowering by their very nature. As people increase their ability to build good habits, they become more engaged in work and life and take greater responsibility for outcomes.

QUALITY & SAFETY

Organizations don't instill workplace behaviors simply because leaders order it. Only by implementing measures and training that foster habit formation can they successfully help employees meet quality, safety, regulatory, or cultural standards.³

SKILL DEVELOPMENT

A recent survey reveals that newly promoted leaders take more than six months on average to develop the skills they need to succeed in the new role. Conversely, when employees know how to leverage the power of habit, they can more quickly adopt new skills and turn them into habits.
